

QUALITY ASSURANCE CHEMIST

Hydromer has a legendary track record of over 40 years of innovation in surface modification technology. With its team of exceptional scientists and executive pioneers, it has created over 100 specialized chemical coatings - including a new line of proprietary active botanical (plant based) ingredients and compounds to help companies maximize their interest in sustainability with safer, more natural alternatives. This vast technology portfolio provides value in many applications within numerous markets including medical devices, animal health, personal care, cosmetics, and industrial applications. Hydromer is ISO Certified, FDA Registered, and sells primarily on a B2B basis to its enterprise clients, which include some of the most trusted and renowned companies in the world.

Due to the expansion of our business, we are currently seeking a detail and results oriented professional who will be responsible for the everyday functions of the QA lab. This will include the sampling and testing of raw materials, work-in-process, and finished products to assure that they meet the established product specifications – as well as the preparation and filing of all required documentation. This highly visible position, reporting directly to the Director of Quality Assurance, must possess the following qualifications:

- Bachelor's degree in chemistry, or a related field
- Three + years of experience in an ISO regulated chemical manufacturing GMP environment
- Hands-on analytical equipment experience, such as FTIR, GC, UV-VIS, KF, Viscosity, etc.
- Generates QA documentation such as CoA, Test Reports, and other Quality documentation
- Assists Management in vendor and regulatory audits
- Must be able to work under minimal supervision
- Adheres to all federal regulations and safety procedures
- Maintain lab data in notebook and in electronic format
- Performs calibrations of laboratory instruments
- Computer literacy, excellent oral and written skills a must
- ERP system entry experience a plus

In return we offer a salary commensurate with experience – along with a medical/prescription plan (approximately 80% of the premium paid by the Company), dental, vision care, life insurance, paid holidays, paid vacation, 401k Plan and more.

EOE, M/F/D/V
