

## MEDICAL COATING LINE OPERATOR

Hydromer, Inc., with its legendary track record of innovation and team of exceptional chemists and executive pioneers, have created over 90 specialized chemical coatings and surface modification technologies for the medical, personal care and industrial markets.

We are currently seeking a few dynamic, hands-on candidates to fill positions within our Concord Medical Contract Coating Group facility. The candidate's main responsibilities will include preparation and application of our medical coatings to our client's devices in our GMP controlled cleanrooms.

Additional responsibilities will include:

- Inspection of all finished work
- Maintaining detailed records of all assigned production activities
- Maintaining a clean work environment, in accordance with established procedures
- Performing all activities in a safe and orderly manner, utilizing PPE when required

Requirements Include:

- Two years plus medical device or general manufacturing experience in an FDA/ISO GMP controlled clean room environment
- Maintain product quality through close attention to detail, careful product handling and strict adherence to established procedures
- Working knowledge of standard and metric measuring systems and basic math
- Basic knowledge of drawings and specifications
- High School graduate or equivalent
- Excellent written, record keeping and oral communication skills
- Good hand-eye coordination and dexterity
- Computer literacy MS Word, Excel, etc.

This is a day shift position (M-F), offering a salary of \$18.00 per hour – with occasional weekend overtime. Our benefits include a medical/prescription plan (partially paid for by the Company), a dental/vision care plan, 11 paid holidays, paid vacation, 401k Plan, life insurance and more.

Qualified applicants should send their resume to Mr. Dahe at [GDahe@hydromer.com](mailto:GDahe@hydromer.com) or contact him at 1-800-287-5208 extension 224 (Monday thru Friday, 9:00am – 4:00pm).

EOE, M/F,D/V
